-WHEELING, VA:-

SATURDAY MORN: SEPTEMBER 15, 1855.

ANNIVERSARY OF THE ADOPTION OF THE PEDER-AL CONSTITUTION .- It will be gratifying to the lovers of the Union to know that arrangements are being made for the celebration of the anniversary of the adoption of the Constitution in Washington City and Baltimore. Similar arrangements for honoring the day have been made in both cities. The Baltimore Patriot, in referring to what has been done there, says:

"Next to the 4th of July, '76, the 17th day of September, 1787, is the most memorable epoch in our history; and fitting is it, in these troublous times, that these jubilees should be celebrated everywhere. Nothing would be so well calculated to extinguish the fires of sectional rancor and strengthen the bonds of the Union. The Secretadent of the United States, the Governor and Sen ators of the State of Maryland, and such citizens of the States as have distinguished themselves by their devotion to the principles of the Constitution and the Union as may be designated by the meet-

ELECTION IN TEXAS. -The New Orleans Bee says the election returns received from Texas (to the 1st inst.) are unexpectedly favorable to the American party.' Although the Democrats have reelected Gov. Pease, his majority is reduced in hitherto impregnable Texas to probably less than 3000. In seventy-one counties he lends Dickson 3,423, with twenty-nine strong American counties to hear from. In the same counties Dr. Jowers, the American candidate for Lieutenant Governer, has 251 majority, and his election is regarded as a fixed fact. The Eastern District has elected Evans, American, to Congress. The returns sum up as follows: Evans 7,278, Ward 6,361,Egiving the former a majority of 917, with 7 counties to hear from, which will increase his majority. It is supposed that Crosby (A.) beats Fields (D.) for Commissioner of the Land Office. Thus it appears that the Americans have carried the Lieut. Governor, Commissioner of the Land Office, and one member of Congress, while the Democrats have elected their Governor and one Congressman. The Legislature is yet in doubt. 'The Senate is probably Democratic, from the large number of Senators who hold over. The House may or may not counterbalance the Senate.

THE VIRGINIA CATTLE TRADE. - The Abingdon Virginian, speaking of the sale of cattle in that vicinity, says:

"There are a great many cattle in this and the neighboring counties, but the scarcity of money holds speculators off, and we hear of no sales .-For the last few years cattle have been at too high a notch, drovers have suffered in the flesh, and hence they are unusually backward in buying .-But one drove has as yet passed through this place. and that comprised about 400 head of a little the poorest stock we have ever seen travel this road. There are a great many cattle for sale in Russell, most of them in fine order, and we understand they can be bought upon favorable terms."

THE CROPS IN EUROPE. - The New York papers

state that the late news from Germany in relation to the grain crops is of a very unfavorable character. The supplies at this time of the year are usually very small and the prices not high, but the accounts from East Prussia, Pomeranio, Silesia, Mecklenburg, and Holstein have caused some excitement. Rye will give hardly one half the average. The wheat has been so much injurd by the rust that the entire loss of it is feared, while the diseases of potatoes has been al so great extent that the worst is to be expected. The stock of old wheat is entirely exhausted. Under these circumstances, prices in all the continental markets, with the exception of Holland, have considerably advanced. At Berlin, Stettid, and Cologne, for several days, holders had entirely withdrawn from the market.

TA private despatch from Burlington to the N. Y. Times, states that Mr. Loveland, who was killed in the railroad catestrophe, had at the time a large amount of funds in his possession, but when his partner, Mr. Green, arrived there were missing. Mr. G. subsequently recovered a check of \$10,000 from one person, and various articles of property from others. No money was found on Mr. Loveland, although it was believed that he had a large sum. Some excitement has been caused by the affair, and a legal investigation was to be had.

There had been do arrests or persons censured by the Coroner's jury.

OBITUARY .-- The Hon. HENRY W. COLLIER, Ex-Covernor of the State of Alabama, died at Baily's Springs, in that State, on the 28th ultimo, after a protracted illness. He was a native of Virginia, was raised and educated in South Carolina, and emigrated to Alabama about the time he attained his majority. He was for twelve years Chief Justice of his adopted State, and more recently served four years (two election terms) as its Chief Magistrate. He was esteemed both as a public officer and as a private citizen.

DISTINGUISHED VISITORS .-- The sister of his Serene Highness, Santa Anna, late President of Mexico, and his brother-in-law, arrived at Louisville on Monday night on the steamer Sultana, from New Orleans, and next morning took their departure for New York by the Jeffersonville Rail; road. Santa Anna himself is expected that way

The following letter from New York, geneerously proposing to co-operate with the citizens of Baltimore in providing for the destitute orphans of Norfolk and Portsmouth, has been received by

NEW YORK, Sept. 11, 1855. My Dear Sir:-I notice in this morning's Tele-graph Report, that 200 children are to arrive in Baltimore from Norfolk and Portsmouth. In what way can New York best serve the interests of the bereaved ones? Our community are with you of Baltimore—that has done so nobly. Our commit-tee has between 13 and \$14,000 thus far subscribed. A thousand dollars came in this morning, and all that is needed, I feel confident, can be obtained. We want to know what is most needed- how much. We will go with you in this unto the end, and endeavor to do our duty. The Corn Exchange Committee, and Mr Souter,

of the Bank of the Kepublic, have collected \$8,-000 or more, and remitted to Norfolk. A reply by return mail will greatly oblige,

Yours, very truly, E. MERRIAM, Sec'y.

To His Honor, the Mayor of the city of Baltimore,

DMr. Thomas F. Meagher, one of the Irish repealers who emigrated to this country from Australis, has been admitted to practice as an attor-

ney and counsellor in all the courts in New York. by a special order of the Supreme Court in the Third Judicial District. Mr. Meagher, not being a citizen of the United States, was not eligiple to a regular examination, and is admitted by courtesy. Dr. Holmes in his lecture in Cincinnati on

Thursday evening last, stated that in 1844 the mortality in the United States was 1 in 55, and in England 1 in 45. The average age in the United States was 33 and in England 29.

From the Baltimore Patriot, of Thursday. Progress of the Yellow Pever at Norfolk and Portsmouth,

Owing to the sickness of the Postmaster and Mail Carriers at Portsmouth, there have been no mails from that place during the last three days. Mr. entitled, Falls, President of the Baltimore and Norfolk line of steamers went down on the Louisiana, on Tuesof steamers went down on the Louisiana, on Tues-day, and effected an arrangement by which the of the most celebrated authors connected with the mails will hereafter be received regularly. The Sunday Owlet; who, under the assumed incogni-Louisiana brought the mails this morning.

Dr. Maund, Physician on board the Lousiana, informs us that, for the twenty-four hours ending at noon yesterday, there were, in Norfolk, 45 deaths and 50 new cases, In Portsmouth, 25 deaths and The most astounding Fiction ever issued from the 20 new cases.

The Queen of England at the Tomb of Na-

(From the Monituer.)

The Queen visited, the day before yesterday, he tomb of the Empetor. No one of her visits produced a deeper impression. As the review er expected at the Rotel des Invalides, neverthe less, she determined on going there, notwithstand-ing the lateness of the hour. The Queen arrived consequently, at night fall, followed by a numerous stoff, surrounded by the veterans of our old wars, who had hastened to meet her, while she advanced with noble composure towards the last resting place of him who was England's most constant adversary. What a spectacle! How many retembrances with all the contrasts, they brought p to the mind! But when by the light of torches up to the initial But when by the light of totches, the glittering of uniform, amid the strains of the organ playing 'God save the Queen,' her Majesty was led by the Emperor to the chapel where the remains of Napoleon lie, the effect was overpowering and immense, the emotion profound, for very one was reflecting that this was no ordinary mage offered at the tomb of a great man, but a solemn act, attesting that the rivalries of the past were forgotten, and that now the union between he two peoples had received its most signal conecration

New JERSEY-The Late Railroad Staughter .-The public press in all parts of the country has uttered in emphatic terms, its condemnation of the ecent wholesale murder on the Camden & Amboy Railroad. In an editorial article on the subject the N. Y. Courier holds the following forcible and

truthful language: "The State of New Jersey is as verily guilty of manslaughter as any culprit that ever swung at Tyburn. Manslaughter is defined to be killing of another without malice, yet without warrant or excuse, and that is the very form of guilt New lersey has contracted in trifling with and destroyng the lives of those who have placed themselves

in her keeping."

"There need be no talk of the Cam"That thing den and Amboy Railroad Company. That thing is the creature of the State of New Jersey, New lersey made it, and said it should have no rival .--New Jersey protects it, and directs it, and shares its ill-gotten gains. It was New Jersey, by her charter of 1832, that forever prohibited the con-struction of any other railwad across her limits between the cities of New York and Philadelphia; it was she that by her subsequent legislation, and alteration of her constitution, has made this char-ter perpetual; and it was she that made the extrar perpetual; and it was she that made the extra-idinary compact whereby she receives transit du es of ten cents for every passenger not belonging for Preserving Fruits, on hand or nade to order at short o New Jersey, and 15 cents for every ton of i chandise carried through this State; and it is she that, as direct partner in the vutual ownership of Pipes, etc. 2000 shares of the monopoly which never cost her a dollar, annual receives dividends of 50 cents on every three dollars, net money received from the through passengers; and she also that has levied 2 cents on every ten miles on bullion transported on ne line. From these unparalleled levies and im ositions, the treasury of New Jersey has already

'Do you smoke, Tommy,' inquired the Doctor.
'Now and then,' was the reply.
'Folks all well, Tommy?' 'So so ish—pretty confortable.'
'I saw your mother the other day; she was dress-

d in deep mourning. Who is that for, Tommy?"
'Why, you know that father has been very sick?" 'Yes; but bless me, he ain't dead, is he? Dead? no! He's got nearly well; and mother was so disappointed she put on montaing, and says she is wearing it for an aunt of mine who ied some time ago; but you and I understand it, doctor, that's all in a pig's eye. You don't want to step over to Young's and moiston the alimentary, do you?"

Dr. A. M. Matriceau:—My Dear Sir—My wise has been perceptibly sinking for some three years or more, in consequence of great anguish and suffering some months before and during confinement; every successive one more and nore debilitated and prostrated her, putting her like in imminent danger, and which was on the last occasion despaired of. I supposed that this state of things was inevitable, and resigned myself to meet the worst. I heard your book highly spoken of, as containing some matters reaching my case. On its receipt and perusal I cannot express to you the relief it afforded my distressed mind, and the joy its pages imparted to my wife, on learning that the great discovery of M. M. Desomeaux provided a remedy. It opened a prospect to me which I little conceived was possible. But for this, ere another year would have passed over my head, in all human probability my wite would have been in her grave and my children left motherless.

WE WOULD NOT GIVE A DOLLAR FOR ALL THE TINCTURE HAMPTON

THUS spoke a wise and good man; but mark the change! Let the afficied hear hirs, and then decide whether to suffer on or be made whole. Ye professional men, with rulined health hear.

Rev James W. H. micutt, the talented and independteditor of that highly popular and extensively read pa , the Christian Banner, published at Fredericksburg , in his editorial of the 18th of May, 1855, thus speaks

"Some time ago we merely alluded to Hampton's Veg retable Tructure, with a promise of noticing more particularly the great relief we have ourself derived from its use. During our collectate course, owing to sedentary tablis we became our description of were very much

many the great relief we have ourself derived from its use. During our collegate courses, owing to sedentary habits, we became quite dryspelife and were very much troubled with vertigo. For more than twelve years after leaving college, we were laboring seriously under these two afflictions. In the spring of 1853, our health became so delicate that it was with great difficulty we could attend to the ordinary duries of our profession. Every thing we are immediately turned acid; our digestive organs became wholly deranged; toxing as it seemed to us all their activity and vitality; we were constantly depressed in splitt; our energy almost forsook us, and nothing but necessity urged us on to action.

"We had taken strong medicines, observed great particularity in our diet, and all 10 no purpoge. We had despaired of ever recovering our health when a lemale friend of ours importanted us to get a bottle of Hampton's Vegetable Incture, assuring us that we would find great relief from its use. We briefly replied, 'we would not great adolar for all the Tracture Hampton ever made, so ar as our own individual health was concerned. We had no taith in it or any other medicine in effecting a cure on its. In the sindness of her heart, however, without consulting us about it, she sent and got one bottle and urged us to accept of it, and for heart, however, without consulting us about it, the sent and pot one bottle and urged us to accept of it, and for heart, however, without consulting us about it, the sent and got one bottle and urged us to accept of it, and for heart, however, without consulting us about it, the sent and got one bottle and urged us to accept of it, and for heart, however, without consulting to accept of it, and for heart, however, without consulting to accept of it, and for heart, however, without consulting to accept of it, and for heart, however, without consulting the acceptance of it, and for heart, however, without consulting the acceptance of it, and for heart, however, without consulting the acceptance

make this statement, hoping that others may find the saturate from its use that we have. It should be kept it every family. No family should be without Hameton's Veneraals Tinctures. Lawyers, Doctors, Bankers, Ministers, in all the Depart ments of State, Ladies and Gentlemen in the lighest walks of life, as well as those moving in the most humble spheres, speak of the canes on themselves and friends by this wonderful article.

In proof of what we say above, we now refer you to Hampton's Legemble Tincture, and its elects.
